Keoladeo Ghana National Park is a man-made wetland in Rajasthan. The 29 km reserve is locally known as Ghana, and is a mosaic of dry grasslands, woodland swamps, and wetlands. These diverse habitats are home to 366 bird species, 379 floral species, 50 species of fish, 13 species of snakes, 5 species of lizards, 7 amphibian species, 7 turtle species, and a variety of other invertebrates. Every year thousands of migratory waterfowl visit the park for wintering breeding etc. The Sanctuary is one of the richest bird areas in the world. It is known for nesting of its resident birds and visiting migratory birds including water birds. Owing to the abundance of the birds, KNP is often referred as birders paradise. It is a UNESCO World Heritage Site.

The Lodge

Our heritage hospitality goes beyond the narrowly appointed rooms, period decor and antique furniture. The best of creative style is equally distinguished by warmth & personal involvement of our attention to various intangibles that define the rich and varied heritage culture. Courtyard dining at Hotel Laxmi Vilas Palace brings back the grandeur and a memorable regal Rajasthani experience.
